Re: Chapter 40T Special Development Districts

The Town of Adams Board of Selectmen at their meeting of May 10, 2006, discussed the proposed legislation, which would amend MGL chapter 40 T in regard to Special Development Districts.

Adams has several neighborhoods where infrastructure improvements are needed and also is about to undertake the Greylock Glen project. The Special Development District holds promise as a method for the Town to use to address these infrastructure needs.

The Board also believes that this legislation would potentially provide the Town with a useful economic development tool and wished me to convey to you their support for the adoption of this legislation.

The Town would appreciate your support of this measure. Thank you for your assistance.

Respectfully submitted,

William F. Ketcham
Town Administrator

Cc: Senator Andrea F. Nuciforo, Jr.
Town of Adams Board of Selectmen
